Technology Tips

In order to utilize effectively all the technology resources Jesuit has for its students and parents, please review the following information.

- I. General Information for Parents
- II. Parent Email Accounts
- III. Microsoft Office 365
- IV. Canvas Learning Management System

I. General Information for Parents

All parents must login to their Canvas accounts in order to view grades and assignments throughout the year.

- **New parents** will receive an email in early August with their username/password for their Canvas accounts.
- **Returning parents** will use the email addresses on record at Jesuit as their usernames and the passwords used the previous year. If you have forgotten your password, contact technology@jesuitnola.org and we will reset your password.

II. Parent Email Accounts

You should have already received a preliminary schedule from Jesuit by email. If you did not receive this schedule, please check your spam folder or contact technology@jesuitnola.org and a schedule can be resent. Throughout the year, quarterly report cards will be sent via email as well.

In order to ensure you are receiving all emails from Jesuit, you will need to add jesuitnola.org as a “Safe Sender” with your email provider. This step is important to prevent Jesuit emails from being sent to your spam folder. You should also add scheduler@jesuitnola.org, jesuit_registrar@jesuitnola.org, principals_office@jesuitnola.org, and president_office@jesuitnola.org to your contact list to ensure that these emails are not directed to your spam folder.

III. Microsoft Office 365

All students have access to an Office 365 subscription while they are enrolled at Jesuit High School. This subscription includes free downloads of the latest Office productivity applications, cloud storage with OneDrive, and online versions of applications such as Word, Excel, and PowerPoint.

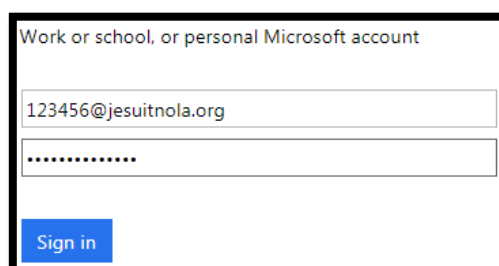

How to login to Office 365:

Visit <https://login.microsoftonline.com/>

Enter the student’s username and password.

Username is *student_number@jesuitnola.org*, i.e. *123456@jesuitnola.org*

Password is the same password the student uses for school computers and Canvas access.

The image shows a screenshot of the Microsoft Office 365 login interface. At the top, it says "Work or school, or personal Microsoft account". Below this are two input fields: the first contains the email address "123456@jesuitnola.org" and the second contains a series of dots representing a password. At the bottom left of the form is a blue "Sign in" button.

Installing Office on a personal computer:

Click the **Install Office** button after logging into Office 365 (see below)

This link will download a small file to your computer. Open the file and follow the prompts to install Microsoft Office on your personal computer. Office is available for both PC and Mac.

Utilizing other features with Office 365:

Online versions of Word, Excel, and PowerPoint can be run from the Office 365 website. Simply click on the application icon on the homepage to begin. The online version is useful in cases when you need to use Word but are not using a computer with Word already installed.

OneDrive is a cloud-based storage option available to all students. Clicking the OneDrive icon on the homepage will take you to your files. OneDrive works similarly to Dropbox and Google Drive. Students can use this option for saving files worked on at school and at home all in the same location.

IV. Canvas Learning Management System

The Canvas Learning Management System allows students and parents access to grades and assignments throughout the school year. If necessary, Canvas is used for distance learning. Access is through the Jesuit web site, www.jesuitnola.org/parents (or students). Since parent accounts are set up by email address, each parent must have a unique email address. Once logged in, both parents and students can configure the appearance of their homepage, the notifications which they would like to receive, and their personal information.

Please note that students are notified of new grade postings via email. Parents receive copies of these emails, but the links in the emails are designed by Canvas as links for the students only. When parents receive these emails, they should login to Canvas via the website or parent app and view the grades. **The links in these emails will not work with the parent username and password.**

Finally, there is a Canvas Parent app for mobile users that can be downloaded from the app store. Once downloaded, the app will ask the parent to “find my school.” Parents of Jesuit students must select Jesuitnola parent as the school. Once the school is selected, you will be prompted for your Canvas username and password.

Please be aware that all students must have access to a home computer with internet connectivity in order to complete assignments throughout the school year.

If you need help with any of these technology items, please contact Jack Culicchia (culicchia@jesuitnola.org) or Jordan Holmer (holmer@jesuitnola.org), and we will respond to your inquiry.

Summer 2022

Dear Parents,

The Guidance Department's objective is to help your son meet his academic and personal goals. This letter is to acquaint you with the structure of our department and the services we offer. The guidance staff consists of a full-time counselor for each grade level, three college placement counselors, the coordinator of student health and wellness, and the department secretary. The following are some of our Guidance Department services:

1. Each student meets with his grade-level counselor a minimum of once a semester. More frequent meetings are possible, and students are encouraged to make appointments as needed. Typical topics discussed at guidance meetings are: goals, academic progress or difficulties, standardized test results, participation in co-curriculars, college and career planning, and personal difficulties of any type. Parents are also welcome to make appointments with their son's grade level counselors if a need arises.
2. At the upper grade levels, college and career counseling takes place on a one-to-one basis.
3. The Guidance Department coordinates the Teen Life Counts Program, a three-day suicide prevention program offered to all freshman. This program is coordinated through Jewish Family Services, a United Way agency whose trained members are experienced in talking with teenagers about suicide prevention.
4. The Guidance Department offers a Peer Support Program to all pre-freshman. This Program is facilitated by trained upper classmen and is offered in 8th grade theology classes once a quarter. The purpose of Peer Support is to help our younger students make healthy and productive choices by gaining skills and knowledge modeled by our junior and senior leaders. Topics include: academics, time management, coping with stress, dating, drug and alcohol prevention, and other topics appropriate for these students' developmental level.
5. The Guidance Department offers two different support groups for students. A grief support group is offered to students dealing with the loss of a loved one. Student 2 Student is a support group offered to students dealing with various issues such as stress, family problems, school issues, social issues, etc. The grief support group and Student 2 Student are confidential and open to students in all grade levels on a voluntary basis.
6. Within the Guidance Department is the Student Health and Wellness Development Program, headed by the program coordinator, which aims to address the needs of high-risk students whose behavior seems to indicate family, academic, emotional, or social problems that could lead to negative consequences such as substance abuse.

7. The Guidance Department coordinates the PSAT and PSAT 8/9 standardized tests. The PSAT is administered to sophomores and juniors, and the PSAT 8/9 is administered to pre-freshman and freshman. The testing date for both the PSAT and the PSAT 8/9 is Wednesday, October 12, 2022, as posted on the school calendar.
8. The Guidance Department coordinates the After-School Tutoring Program. Through this program, teachers provide free tutoring to any interested pre-freshman or freshman. The tutoring schedule will be posted on the Jesuit website in late August.
9. For many years, Jesuit has asked students in the summer between their sophomore and junior years to reflect on their time at Jesuit and to think forward about their plans and goals for the final two years. We accomplish this through Sophomore Interviews, which is a guided interview with each rising junior and his parent(s). All sophomores are expected to participate in the Sophomore Interviews. Please speak with your son's counselor for more information.

Please assist us in working with your sons by sharing any academic, medical and/or personal information which could be helpful to his counselor. Examples of relevant information:

- a. Academic information might include recent or past evaluations, learning disabilities, dyslexia, attention deficit disorder, etc.
- b. Medical information might include physical conditions, existing visual or auditory difficulties, illnesses or extended absences that occur during the school year.
- c. Personal or family information might include recent separation, divorce, deaths, etc. Please advise and provide us with any legal documentation in regards to custody or communication issues.

All information will be kept confidential unless you inform us otherwise.

We look forward to working with your sons during the school year. Please call us at (504) 483-3835 if you have any questions or concerns regarding any service that our department provides.

Sincerely,

Stephanie Strain
